High Durable Reusable Frame System Structuring

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT04

Product Specification

- Surface Treatment: Powder Coating
- Durability: High
- Flexibility: High
- Stability: High
- Material: Steel
- Color: Steel, Painted Color
- Reusability: Yes
- Cost-effectiveness: Yes
- Highlight: **Main Frame Scaffolding**, **Standard Scaffolding Frame**

Product Description

Product Description:

Frame System Scaffolding is a type of **scaffolding frame system** which is made up of **H frame** and **ladder frame**. It is lightweight and made of steel. The frame is painted in a variety of colors for aesthetic appeal. It is not only visually appealing, but also highly functional. The frame is designed for **high safety**. It is also **easy to dismantle** and offers **high flexibility** for various applications. With its lightweight and sturdy design, Frame System Scaffolding is the perfect choice for any job site.

Features:

Product Name: Frame System Scaffolding
Size: Customized
Weight: Lightweight
Surface Treatment: Powder Coating
Safety: High
Cost-effectiveness: Yes
Features:
Walk through scaffold system
Scaffold mobile frame
Ladder frame
Stair tower
Working platforms

Technical Parameters:

Property	Description
Cost-effectiveness	Yes
Safety	High
Load Capacity	High
Easy Installation	Yes
Weight	Lightweight
Flexibility	High
Stability	High
Material	Steel
Reusability	Yes
Surface Treatment	Powder Coating
Scaffold System	Walk Through Scaffold System, Ladder Frame, Guard Rail, Toe Board

Applications:

Bythai Frame System Scaffolding - High Durability and Load Capacity
Bythai's BT04 Frame System Scaffolding is a high-quality, durable, and cost-effective scaffolding solution that is lightweight and easy to use. This h-frame scaffold mobile frame system is designed to provide reliable support for a variety of construction, repair, and renovation projects. It is designed with a high load capacity and exceptional reusability for multiple uses in various types of projects.
Our Frame System Scaffolding is designed to meet the highest standards of safety and durability. It features a lightweight frame that is easy to install and use. With its superior load capacity, it is ideal for use in construction and renovation projects, as well as other applications such as painting, repairs, and maintenance.
The Frame System Scaffolding from Bythai is an excellent choice for any project requiring reliable, cost-effective scaffolding. It is designed with a high degree of reusability and is lightweight, making it easy to transport and install. With its superior

durability and load capacity, it provides a reliable scaffolding solution for projects of any size.

Customization:

Bythai BT04 Frame System Scaffolding
Bythai BT04 Frame System Scaffolding is designed to provide superior safety, durability and load capacity. It is made from high-grade materials and is highly reusable, allowing for easy dismantling and reassembly.
The ladder frame scaffolding is built to strict safety standards and is designed to meet the most demanding requirements. It is also lightweight and easy to transport, making it ideal for use in a variety of applications.
Bythai BT04 Frame System Scaffolding is an excellent choice for any scaffolding project. It is built to last and is perfect for any job requiring high levels of safety, durability and load capacity.

Support and Services:

Frame System Scaffolding Technical Support and Service
Our team provides technical support and service for Frame System Scaffolding. We are committed to providing solutions for any problems you may encounter when using our product. We are available 24/7 to answer any questions and resolve any issues you may have.
We also provide training, advice and assistance in setting up and using Frame System Scaffolding. Our experienced technicians can help you with installation, configuration, troubleshooting, maintenance and upgrades.
We are dedicated to providing the best possible customer service and satisfaction. If you have any questions or feedback about Frame System Scaffolding, please feel free to contact us.

Packing and Shipping:

The Frame System Scaffolding is packaged and shipped in a corrugated cardboard box, with foam inserts for extra protection. The box is sealed with a tamper-resistant seal. All orders are shipped via UPS, FedEx, or USPS with tracking information provided.

FAQ:

Q&A for Bythai BT04 Frame System Scaffolding
Q1: What is Bythai BT04 Frame System Scaffolding?
A1: Bythai BT04 Frame System Scaffolding is a high-quality steel scaffolding system made in China. It is designed for maximum stability and safety, and is suitable for both commercial and residential projects.
Q2: What are the benefits of Bythai BT04 Frame System Scaffolding?
A2: Bythai BT04 Frame System Scaffolding offers a range of benefits, including increased stability and safety, reduced setup time, and cost savings due to its high-quality design and construction.
Q3: What are the components of Bythai BT04 Frame System Scaffolding?
A3: Bythai BT04 Frame System Scaffolding is composed of several components, including vertical frames, guardrails, horizontal frames, and braces. These components can be combined to create a scaffolding structure that suits the specific needs of the project.
Q4: What types of projects is Bythai BT04 Frame System Scaffolding suitable for?
A4: Bythai BT04 Frame System Scaffolding is suitable for a wide range of projects, including commercial and residential construction, painting and decorating, and repair and maintenance work.
Q5: What safety measures are included in Bythai BT04 Frame System Scaffolding?
A5: Bythai BT04 Frame System Scaffolding includes several safety measures, including guardrails, horizontal frames, and braces for extra stability. Additionally, it is designed to meet or exceed all relevant safety standards.
