### Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Certification: SGS
- Model Number: BM201
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 15-25
- Payment Terms: TT/TC

### Product Specification

- Package: Container
- Application: Construction
- Feature: High Strength
- Color: Silver
- Material: Steel
- Standard: EN74-1
- Name: Scaffolding Coupler
- MOQ: 1000

## Product Description

### Product Description:

Scaffolding Coupler - High Strength Japanese Steel Pipe Connectors

Introducing our high-quality Japanese scaffold accessories - Scaffolding Coupler. Made from high-grade steel material, our couplers are designed to provide strong and secure connections for your scaffolding system.

Features:

High Strength: Our Scaffolding Coupler is built to withstand heavy loads and provide maximum stability for your scaffolding structure. It is capable of handling heavy construction equipment and materials without compromising its strength.

Durability: Made from high-quality Japanese steel, our couplers are built to last. They are designed to withstand extreme weather conditions and constant use, making them a reliable choice for any construction project.

Corrosion Resistance: The surface treatment of our Scaffolding Coupler is galvanized, providing excellent protection against corrosion. This ensures that our couplers can withstand long-term exposure to harsh environmental elements, making them suitable for both indoor and outdoor use.

Product Specifications:

Name: Scaffolding Coupler

Material: High-Quality Japanese Steel

Surface Treatment: Galvanized

Package: Container

Our Scaffolding Coupler is a key component of our scaffold clamping system. It is designed to securely hold together multiple steel pipes, providing a stable and safe working platform for construction workers.

With our Scaffolding Coupler, you can rest assured that your scaffolding structure is strong, durable, and corrosion-resistant. Trust in our product to provide the support and stability you need for your construction project.

### Features:

Product Name: Scaffolding Coupler

Surface Treatment: Galvanized

Standard: EN74-1

Color: Silver

Name: Scaffolding Coupler

Package: Container

High-Quality British Couplers

British Coupler Manufacturers

Steel Structure Scaffold Connectors

### Technical Parameters:

Product Name	Scaffolding Coupler
Material	Steel
MOQ	1000
Standard	EN74-1
Color	Silver
Feature	High Strength
Application	Construction
Surface Treatment	Galvanized
Package	Container
Product Description	Scaffold and Structure Connectors, BS1139 Standard Couplings, BS1139 Standard Couplings

### Applications:

Scaffolding Coupler - The Best Choice for Construction

Brand Name: Scaffolding Coupler

Model Number: BM201

Place of Origin: China Tianjin

Certification: SGS

Price: \$4.5-8.5

Packaging Details: In bundles

Delivery Time: 15-25 days

Payment Terms: TT/TC

Color: Silver

Name: Scaffolding Coupler

Standard: EN74-1

Application: Construction

Feature: High Strength

When it comes to construction, the right equipment and accessories are crucial for a successful project. This is where Scaffolding Coupler comes in - a high-quality Japanese scaffold accessory that is a must-have for any construction site.

Scaffolding Coupler, also known as JIS Standard Couplings, is designed to provide a secure and sturdy connection between scaffolding tubes. Made in China Tianjin, this product is certified by SGS, ensuring its high quality and reliability.

One of the key features of Scaffolding Coupler is its high strength. This makes it suitable for heavy-duty construction projects, providing a safe and stable platform for workers to carry out their tasks. Its JIS Standard design ensures compatibility with various scaffolding systems, making it a versatile and practical choice for any construction site.

Thanks to its silver color, Scaffolding Coupler is easy to spot on a busy construction site, reducing the risk of accidents and ensuring the safety of workers. It is also designed for easy installation, saving both time and effort for construction workers.

With its EN74-1 standard, Scaffolding Coupler meets the highest industry standards, guaranteeing its quality and durability. It is also competitively priced, with a range of \$4.5-8.5 per piece, making it an affordable choice for construction companies of all sizes.

Whether it's for building construction, bridge construction, or any other type of construction project, Scaffolding Coupler is the perfect choice for secure and reliable scaffolding. Its packaging in bundles makes it easy to transport and store, and with a delivery time of 15-25 days, you can have it on your site in no time.

When it comes to payment, Scaffolding Coupler offers flexible options such as TT/TC, making it convenient for customers to purchase and use.

Overall, Scaffolding Coupler is a top-quality product that is essential for any construction project. Its high strength, JIS Standard design, and competitive price make it the go-to choice for construction companies around the world. Trust Scaffolding Coupler for a safe, secure, and successful construction project.

### Customization:

Scaffolding Coupler - Customized Service

Brand Name: Scaffolding Coupler

Model Number: BM201

Place of Origin: China Tianjin

Certification: SGS certified

Price: \$4.5-8.5

Packaging Details: In bundles

Delivery Time: 15-25 days

Payment Terms: TT/TC

Color: Silver

Surface Treatment: Galvanized

MOQ: 1000 units

Product Name: Scaffolding Coupler

Material: High Quality Steel

Customized Service for BS EN 74 Scaffold Accessories and Universal Scaffold Clamping Tools

With our BM201 scaffolding coupler, we offer customized services to meet your specific needs and requirements. Our product is made of high quality steel and is designed to be used for BS EN 74 scaffold accessories and universal scaffold clamping tools.

Originating from China Tianjin, our product is SGS certified and guarantees durability and reliability. We offer a competitive price range of \$4.5-8.5 per unit.

Our scaffolding coupler is packaged in bundles for easy transportation and storage. With a delivery time of 15-25 days, we ensure quick and efficient service to meet your project deadlines.

For payment options, we accept TT/TC to provide flexibility to our customers.

The coupler comes in a silver color with a galvanized surface treatment for added strength and resistance against rust and corrosion.

The minimum order quantity for our product is 1000 units.

### Packing and Shipping:

Scaffolding Coupler Packaging and Shipping

Our Scaffolding Couplers are carefully packaged and shipped to ensure their safe arrival at your location.

Packaging:

The couplers are first placed in a protective plastic bag to prevent any scratches or damage during transit.

They are then placed in a sturdy cardboard box, with appropriate cushioning materials to prevent any movement or breakage.

The box is sealed with strong tape to secure the contents.

Shipping:

We offer various shipping options to suit your needs:

Standard shipping: Our standard shipping option delivers the couplers within 5-7 business days.

Expedited shipping: For urgent orders, we offer expedited shipping which delivers the couplers within 2-3 business days.

International shipping: We also ship our couplers internationally to meet the needs of our global customers.

All shipping costs will be calculated at the time of purchase and will vary depending on the shipping option chosen and the destination.

Rest assured, we take great care in packaging and shipping our Scaffolding Couplers to ensure their safe arrival and your satisfaction.
