Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BM205
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Shipping Origin: China
- Arrival Time: 10-15
- Size: Customized
- Color: Steel/Spray Plastic
- Material: Q235
- Load Capacity: High
- Highlight: **Scaffold Portal Frame System,
Customized Portal Metal Scaffolding,
Customized Scaffold Portal Frame System**

Product Description:

Frame System Scaffolding - The Ultimate Solution for Your Construction Needs

Are you tired of using traditional scaffolding systems that are heavy, time-consuming, and difficult to assemble? Look no further than Frame System Scaffolding – the perfect combination of strength, durability, and versatility. Our scaffolding system is designed to meet all your construction requirements, making it the top choice for contractors and builders worldwide.

Material: Q235

At Frame System Scaffolding, we use only the highest quality material – Q235 steel. This material is known for its exceptional strength and durability, making it perfect for heavy-duty applications. With our scaffolding, you can be assured that your workers are safe and secure while working at heights.

Arrival Time: 10-15 Days

We understand that time is crucial in the construction industry. That's why we ensure that our products are delivered to you within 10-15 days of placing your order. Our efficient delivery system and strategic shipping locations in China make it possible for us to meet tight deadlines without compromising on quality.

Load Capacity: High

Our Frame System Scaffolding is designed to support heavy loads, making it ideal for a wide range of construction projects. With a high load capacity, you can confidently use our scaffolding for complex and demanding jobs without worrying about safety or stability.

Shipping Origin: China

Our Frame System Scaffolding is proudly made in China, a country known for its high-quality manufacturing and construction products. We source our materials from reliable suppliers and use advanced technology to ensure that our scaffolding meets international standards.

Size: Customized

Every construction project is unique, and that's why we offer customized sizes for our scaffolding. Whether you need a specific height, width, or length, our team can design and manufacture scaffolding to meet your exact requirements. This flexibility sets us apart from traditional scaffolding systems that come in fixed sizes.

Walk Through Scaffold System

Our Frame System Scaffolding is a walk-through scaffold system, making it easy for workers to move around and access different areas of the construction site. This feature not only improves efficiency but also ensures the safety of your workers.

Frame System Structuring
