- Highlight: **Sturdy Scaffolding Climbing Platforms, 30cm Step Height Scaffolding Platforms, 50cm Step Width Extendable Plank**

Sturdy Scaffolding Climbing Platforms With 30cm Step Height And 50cm Step Width

Product Description:

Scaffolding Ladders - Your Ultimate Construction Companion

Product Overview

Scaffolding Ladders are the perfect solution for all your construction needs. Made with high-quality materials and designed for durability, these ladders are the ideal choice for any construction project. With a load capacity of 150kg and a 2-year warranty, you can trust our ladders to meet all your safety and performance requirements.

Color: Silver

Our ladders come in a sleek silver color, adding a professional touch to your construction site. The silver color also helps to reflect heat, making it more comfortable for workers to use in hot weather.

Surface Treatment: HDG

Our ladders are treated with Hot-Dip Galvanization (HDG), providing an extra layer of protection against corrosion and rust. This makes our ladders perfect for outdoor use and ensures their longevity, even in harsh weather conditions.

Load Capacity: 150kg

With a load capacity of 150kg, our ladders are designed to handle heavy loads and provide maximum stability. This makes them suitable for a wide range of construction tasks, from simple repairs to more complex projects.

Material: Aluminum/HDG

Our ladders are made with a combination of aluminum and HDG galvanized steel, making them both lightweight and strong. The aluminum components make the ladder easy to maneuver and transport, while the HDG steel adds strength and durability.

Key Features

Durable: Our ladders are built to last, with high-quality materials and sturdy construction.

Versatile: With different sizes and load capacities available, our ladders can meet the needs of any construction project.

Safety: Each ladder is designed with safety in mind, providing stability and support for workers at all times.

Lightweight: The aluminum components make our ladders lightweight and easy to move around, without sacrificing strength or durability.

Why Choose Scaffolding Ladders?

Our Scaffolding Ladders are the perfect combination of strength, durability, and safety. With our HDG surface treatment and aluminum/HDG material, our ladders are built to withstand the toughest construction environments. They are also lightweight and versatile, making them the ideal choice for any construction project. Plus, with a 2-year warranty, you can trust our ladders to stand the test of time. Choose Scaffolding Ladders for all your construction needs.

Technical Parameters:

Product Name	Scaffolding Ladders
Color	Silver
Warranty	2 Years
Surface Treatment	HDG (Hot Dipped Galvanized)
Size	3m
Step Width	50cm
Step Height	30cm
Material	Aluminum/HDG (Hot Dipped Galvanized)
Load Capacity	150kg
Product Features	Load-bearing ladder, Ladder without hook, Scaffolding Mounting Ladders

Applications:

Scaffolding Ladders for Easy and Safe Access to Elevated Work Areas

Introducing bythai BM224: The Most Versatile and Durable Scaffolding Access Ladders

Are you tired of using unstable and unsafe ladders to access elevated work areas? Look no further, bythai BM224 is here to provide you with the perfect solution! Our scaffolding ladders are designed to meet all your needs and ensure a safe and efficient working environment.

Product Overview:

Brand Name: bythai

Model Number: BM224

Place of Origin: China Tianjin

Minimum Order Quantity: 1000

Packaging Details: Container

Delivery Time: 10-25 days

Size: 3m

Step Width: 50cm

Surface Treatment: HDG (Hot-Dipped Galvanized)

Warranty: 2 Years

Load Capacity: 150kg

Product Features:

Designed for scaffolding access ladders in construction sites, warehouses, factories, and other elevated work areas.

Made with high-quality materials for durability and stability.

Easy to assemble and adjust to different heights for versatile use.

Anti-slip surface treatment for added safety.

Load-bearing ladder with a capacity of 150kg.

HDG surface treatment for corrosion resistance and long-lasting use.

Comes with a 2-year warranty for customer satisfaction.

Product Applications and Scenarios:

bythai BM224 scaffolding ladders can be used in a variety of applications and scenarios, including but not limited to:

Construction sites: Our ladders provide easy and safe access to elevated work areas such as scaffolding, roofs, and high walls.

Warehouses: Our ladders can be used to reach high shelves and racks for efficient storage and retrieval of goods.

Factories: Our ladders can be used for maintenance and repair work on machinery and equipment.

Home improvement projects: Our ladders are perfect for painting, cleaning, and other DIY projects in and around the house.

Why Choose bythai BM224 Scaffolding Ladders?

Efficiency: Our ladders are designed to make your work more efficient by providing easy and safe access to elevated areas.

Durability: Made with high-quality materials, our ladders are built to last and withstand heavy use.

Safety: With anti-slip surface treatment and a load-bearing capacity of 150kg, our ladders ensure maximum safety for the user.

Adjustable height: Our ladders can be easily adjusted to different heights, making them versatile for use in various applications.

Stability: Our ladders are stable and secure, providing a reliable platform for users to work on.

Easy to assemble: Our ladders can be assembled quickly and easily, saving you time and effort.

2-year warranty: We stand behind our product and offer a 2-year warranty for your peace of mind.

Ordering and Delivery:

To order bythai BM224 scaffolding ladders, please contact us with your specific requirements. Our minimum order quantity is 1000 units, and delivery time is between 10-25 days. The ladders will be packed and delivered in containers for safe and convenient transportation. Don't compromise on safety and efficiency in your workplace. Choose bythai BM224 scaffolding ladders for a high-quality and reliable solution. Contact us today to place your order and experience the difference!
