

## Architecture Ringlock System Scaffolding Q235 Steel Hot Dip Galvanized

### Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BM202
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: TT/TC

### Product Specification

- Warranty: 2 Years
- Surface Treatment: Hot Dip Galvanized
- Product Name: Ringlock System
- Application Scenarios: Architecture
- Shipping Origin: China
- Material: Q235 Steel
- Highlight: **Architecture Ring Scaffold System,  
Hot Galvanized Scaffolding Ringlock System,  
Galvanized Q235 Ringlock System Scaffolding**

### Product Description:

#### Architecture Application Of Ringlock System Scaffolding Q235 Steel Hot-Dip Galvanized Ringlock System Scaffolding

The Ringlock System Scaffolding is a versatile scaffolding solution designed for use in architecture projects. This high-quality scaffolding system is hot-dip galvanized, ensuring durability and resistance to corrosion, making it suitable for outdoor and indoor use.

As a leading supplier of scaffolding products, we are proud to offer the Scaffolding Ring Lock to our customers. Our Ringlock Scaffold Supplier is based in China, where we manufacture and ship our products to customers around the world.

With its innovative design and reliable construction, the Ringlock System is an essential tool for any construction project. It is easy to set up and can be used for a variety of applications, making it a versatile choice for contractors and builders.

Key Features

Versatile Ringlock Scaffold suitable for a range of construction projects

Hot-dip galvanized surface treatment for durability and corrosion resistance

High-quality construction for safety and stability

Easy to set up and dismantle for quick and efficient use

Compatible with a variety of accessories for increased functionality

Application Scenarios

The Ringlock System Scaffolding is ideal for use in architecture projects such as:

Building construction and renovation

Bridge and tunnel construction

Industrial maintenance and repair work

Stage and event construction

Its versatility makes it a valuable asset for any construction project, providing a safe and reliable scaffolding solution for workers at various heights.

Warranty

We stand behind the quality of our products and offer a 2-year warranty for the Ringlock System Scaffolding. This warranty covers any manufacturing defects and ensures that our customers can use our scaffolding with confidence.

Invest in the best with the Ringlock System Scaffolding – your go-to choice for high-quality and reliable scaffolding. Contact us today to learn more about our products and how they can benefit your construction project!

### Features:

Ringlock System Scaffolding Product Features:

Product Name: Ringlock System Scaffolding

Material: Q235 Steel

Surface Treatment: Hot-dip Galvanized

Warranty: 2 Years

Application Scenarios: Architecture

Shipping Origin: China

Advanced Ringlock Technology

Easy Installation Scaffold System

High Load Capacity

Versatile Configuration

Durable and Long-lasting

Rust Resistant

Efficient and Time-saving

Customizable Design

Cost-effective Solution

### Technical Parameters:

Attribute	Value
Product Name	Ringlock System
Material	Q235 Steel
Application Scenarios	Architecture
Surface Treatment	Hot-dip Galvanized
Secure Scaffolding Joints	Yes
Easy Installation Scaffold System	Yes
Cost-Effective Ring Lock System	Yes
Warranty	2 Years
Shipping Origin	China

## Applications:

Ringlock System Scaffolding by Bythai

Brand Name: Bythai

Model Number: BM202

Place of Origin: China

Certification: SGS

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 10-15

Payment Terms: TT/TC

Material: Q235 Steel

Surface Treatment: Hot-dip Galvanized

Product Name: Ringlock System

Application Scenarios: Architecture

Shipping Origin: China

The Ringlock System Scaffolding by Bythai is a versatile and high-quality scaffolding solution that is perfect for various construction projects, especially in the field of architecture. As a reliable Ringlock Scaffold Supplier, Bythai's Ringlock System is designed to meet all your scaffolding needs.

The Ringlock System is made of Q235 steel and is hot-dip galvanized, making it strong, durable, and resistant to corrosion. This ensures the safety and stability of the scaffolding, even in harsh weather conditions. The hot-dip galvanization process also adds a layer of protection to the scaffolding, making it suitable for both indoor and outdoor use.

One of the key features of the Ringlock System is its easy installation process. It comes with a unique Ringlock Scaffold Connector that allows for quick and effortless assembly. This not only saves time but also reduces labor costs, making it a cost-effective choice for any construction project.

The versatility of the Ringlock System is another major advantage. It can be used for various applications, such as building facades, bridges, high-rise buildings, and even in narrow spaces. This makes it a popular choice among contractors and construction companies. As a trusted Ringlock Scaffold Supplier, Bythai ensures that the Ringlock System is of high quality and meets all safety standards. It is also SGS certified, providing assurance of its reliability and durability.

The Ringlock System is shipped from China, the origin of Bythai's production. With reliable and efficient shipping services, the product can be delivered to your construction site in a timely manner, helping you meet your project timelines.

In conclusion, the Ringlock System Scaffolding by Bythai is a top-quality, versatile, and easy-to-install scaffolding solution that is perfect for various construction projects. With its hot-dip galvanized surface treatment and unique Ringlock Scaffold Connector, it provides a safe, stable, and cost-effective option for any construction site.
