Scafold / Ladder Frame Aluminium Scaffolding Ladder Mobile

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: bythai
- Certification: SGS ISO
- Model Number: BT209
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: L/C, T/T

Product Specification

- Warranty: 1 Year
- Safety Features: Guardrail, Toeboard, Ladder
- Stability: High
- Usage: Indoor/Outdoor
- Flexibility: High
- Surface Treatment: Hot Dip Galvanized
- Shipping Origin: China
- Durability: High
- Material: Steel
- Safety: High
- Easy Dismantling: Yes
- Size: 1219/1829/1930
- Highlight: **Mobile Aluminium Scaffolding Ladder**, **W 1350MM Aluminium Scaffolding Ladder**, **Aluminum 6061 T6 Frame System Scaffolding**

Product Description

Scafold/Ladder Frame Factory Wholesale Aluminium Ladder Scaffolding/Mobile

Features:
Sturdy and stable: Made of high-quality steel or aluminum alloy, the structural design is precisely calculated to ensure stability and reliability, and can safely support workers and work equipment.
Flexible and changeable: The height and width can be adjusted to adapt to different construction environments and needs, and a variety of construction solutions are provided to meet the requirements of various construction projects.
Quick installation: The structure is simple, and assembly is quick and easy. No professional skills are required, which reduces the construction time and improves work efficiency.
Durable and anti-corrosion: The surface has been specially treated to have excellent corrosion resistance and can be used for a long time in harsh environments without failure.
Safety guarantee: It is equipped with anti-slip and anti-fall facilities and solid guardrails to ensure the safety of workers when working at heights and meets strict safety standards.
Scope of application:
Building construction: used for the construction, decoration, maintenance and other work of large buildings.
Urban maintenance: Suitable for maintenance and repair of public facilities such as bridges and overpasses.
Industrial equipment: used for the installation, inspection and maintenance of high-altitude equipment.
