Construction Building Material Mideast Steel Prop Galvanized Painted Acro Jack Formwork Shoring

Our Product Introduction

Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding steel prop
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-25
- Payment Terms: L/C, T/T

Product Specification

- Material: Steel
- Weight: Heavy
- Usage: Construction
- Size: Standard
- Feature: Durable
- Surface Treatment: HDG
- Height: Adjustable
- Function: Support
- Highlight: **Acro Jack Steel Prop**, **Galvanized Painted Steel Prop**, **Galvanized Painted Acro Jack**

Product Description

Product Description:

Adjustable Steel Prop

The Adjustable Steel Prop is a crucial tool for any construction project. Made from high-quality steel, this product is designed to provide strong and reliable support for concrete structures. Its adjustable height feature makes it a versatile and essential piece of equipment on any job site.

Surface Treatment

The Adjustable Steel Prop is coated with a Hot-Dip Galvanized (HDG) surface treatment. This process involves immersing the steel in molten zinc, creating a protective layer that prevents corrosion and extends the lifespan of the product. The HDG surface treatment also gives the product a sleek and professional silver color.

Function

As its name suggests, the Adjustable Steel Prop is primarily used for support. It can be used to support concrete slabs, beams, and other structures during construction. Its adjustable height feature allows it to adapt to different heights and angles, making it suitable for a wide range of construction projects.

Color

The Adjustable Steel Prop is finished in a silver color, thanks to its HDG surface treatment. This not only gives the product a professional appearance but also makes it highly visible on a job site for safety purposes.

Height

One of the key features of the Adjustable Steel Prop is its adjustable height. This allows it to be used for structures of varying heights, providing reliable support for any construction project. Its adjustable height also makes it easy to transport and store.

Material

The Adjustable Steel Prop is made from high-quality steel, ensuring its strength and durability. This makes it capable of withstanding heavy loads and rough construction environments. Its sturdy construction also makes it a safe and reliable choice for any construction support needs.

Key Features

High-quality steel construction

Adjustable height feature

Hot-Dip Galvanized surface treatment

Silver color for visibility and professionalism

Sturdy and reliable support for construction projects

Uses

The Adjustable Steel Prop is a versatile and essential tool for any construction site. It can be used for a variety of purposes, such as:

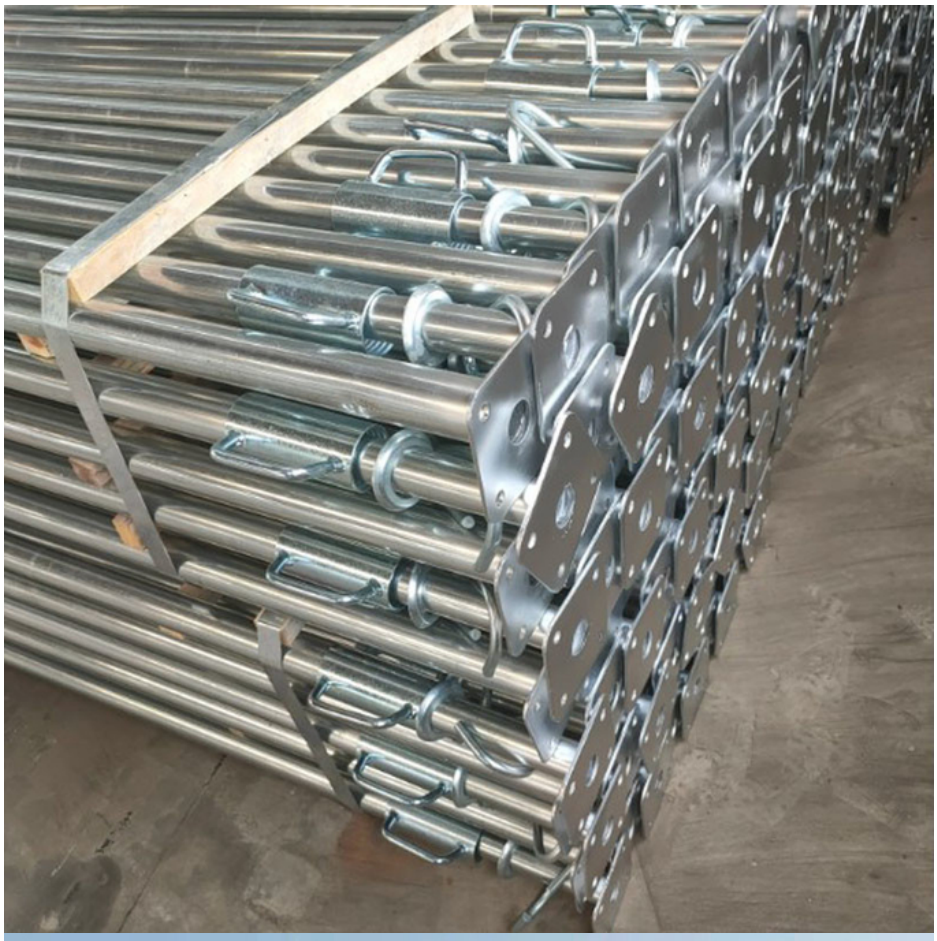
Supporting concrete slabs, beams, and other structures during construction

Acting as a tripod for scaffolding

Supporting temporary structures, such as stages or platforms

Providing additional support for existing structures during renovations or repairs

Overall, the Adjustable Steel Prop is a reliable and essential tool for any construction project, providing strong and adjustable support for a variety of structures. Its high-quality construction and HDG surface treatment make it a durable and long-lasting choice for construction support needs.



Features:

Product Name: Adjustable Steel Prop
Feature: Durable
Color: Silver
Weight: Heavy
Height: Adjustable
Function: Support
Key words: steel prop jack, tripod prop

Packing and Shipping:

Packaging and Shipping for Adjustable Steel Prop

Our Adjustable Steel Prop is carefully packaged to ensure safe delivery to our clients. Each product is wrapped in protective materials and placed in a sturdy cardboard box to prevent any damage during transportation.
We offer various shipping options for our clients to choose from, including express delivery and sea freight. Our experienced team will work closely with the chosen shipping company to ensure timely delivery and proper handling of the products.
For international orders, our Adjustable Steel Prop will be packed and shipped in compliance with all relevant customs and export regulations. We also provide necessary documentation for customs clearance.
Upon arrival, our clients can expect to receive the Adjustable Steel Prop in excellent condition, ready to be used for various construction projects.
Thank you for choosing our Adjustable Steel Prop. We are committed to providing top-quality products and services to meet your needs.
