Scaffold Planks Galvanized Scaffolding Steel Plank Customized Sizes Construction Steel Metal Plank

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS,ISO
- Model Number: BT205
- Minimum Order Quantity: 1000
- Price: 15.5-85.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping, L/C, T/T

Product Specification

- Material: Steel
- Usage: Scaffolding
- Place Of Shipment: China
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Packaging: Container
- Length: Customized
- Highlight: **Construction Galvanized Scaffolding Steel Plank** , **Customized Galvanized Scaffolding Steel Plank**, **Galvanized Scaffolding Steel Plank**

Product Description

Product Description:

This galvanized steel scaffolding plank is available in different lengths that can be customized to fit your specific requirements. With its sturdy construction, you can be sure that you can use it for a long time, even in rough and challenging environments.
Our steel catwalk scaffold is made of pre-galvanized/hot dip galvanized/spray plastic surface material, ensuring its durability and resistance against rust and corrosion. This feature makes it ideal for outdoor use and other harsh construction environments.
When it comes to packaging, we make sure that our scaffolding planks are delivered to you in a container. This ensures that our product is protected during transport, so you receive your order in the best possible condition.
Overall, our scaffolding steel plank is an excellent investment for your construction or industrial project. It is built to last and can withstand even the toughest conditions. With its customizable length, you can be sure that it will fit your scaffolding needs perfectly. Order now and experience the safety and stability that our galvanized steel scaffolding plank can provide!

Technical Parameters:

Product	Scaffolding Steel Plank/Steel Plank/Steel Staging Plank
Surface	Pre-galvanized/Hot Dip Galvanized/Spray Plastic
Length	Customized
Material	Steel
Place of Shipment	China
Usage	Scaffolding
Packaging	Container

Applications:

These planks are commonly used in construction and maintenance work that requires workers to access high places. They can be used to create walkways and platforms that allow workers to safely move around and perform their tasks. The pierced steel planking design provides excellent traction and prevents slips and falls, making it a safe choice for workers.
The Bythai BT205 scaffolding steel walking planks hook are also ideal for use in industrial settings such as warehouses and manufacturing facilities. They can be used to create elevated walkways and platforms that allow workers to safely move around and access equipment and machinery. The durable steel construction ensures that the planks can withstand heavy use and are built to last.
These planks are available in a variety of lengths to suit different applications. They can be customized to fit specific requirements and are available in pre-galvanized, hot dip galvanized, and spray plastic surface finishes. The planks are certified by SGS and ISO, ensuring that they meet the highest quality standards.
Overall, the Bythai BT205 scaffolding steel walking planks hook are a versatile and durable product that are ideal for a wide range of applications. Whether used in construction, maintenance, or industrial settings, these planks provide a safe and reliable platform for workers to perform their tasks.
