Product Description

Product Description:

Our scaffolding planks are available in three different surface finishes: pre-galvanized, hot dip galvanized, and spray plastic. The pre-galvanized surface finish provides excellent corrosion resistance, making it ideal for outdoor use. The hot dip galvanized surface finish offers even more corrosion protection, making it suitable for use in harsh environments. The spray plastic surface finish provides a non-slip surface, making it ideal for use in wet or slippery conditions.
Our scaffolding planks are compatible with most standard scaffolding systems and can be easily installed. The planks are available in customized lengths to fit your specific needs. Whether you need a short plank for a small job or a long plank for a larger project, we've got you covered.
Our steel planks are perfect for use in pierce steel planking, galvanized steel plank catwalk, and steel plank ringlock scaffolding. They provide a sturdy and safe working surface for your workers, allowing them to move around the job site with ease.
Our scaffolding planks are shipped directly from our factory in China, where they are manufactured to the highest quality standards. We take great pride in our products and stand behind their quality and durability. If you're looking for a reliable and long-lasting scaffolding plank, look no further than our steel planks!

Features:

Product Name: Scaffolding Plank
Usage: Scaffolding
Material: Steel
Available Types:
Steel plank
Steel plank with hooks
Steel plank for scaffold
Length: Customized
Place of shipment: China
Packaging: Container

Technical Parameters:

Attribute	Description
Product Name	Steel Plank/Scaffolding Plank/Steel Frame for Decking Plank/Steel Plank with Hooks
Place of Shipment	China
Packaging	Container
Usage	Scaffolding
Length	Customized
Material	Steel
Surface	Pre-galvanized/Hot Dip Galvanized/Spray Plastic

Applications:

These steel plank scaffolds are ideal for a range of different applications and scenarios. For example, they can be used to provide access to high areas during the construction of buildings, bridges, and other structures. They can also be used as walkways and platforms in industrial environments such as factories and warehouses.
The steel planks w/hook are easy to install and can be used in a variety of different configurations to suit the specific needs of your project. They are also available in different sizes and materials, including pre-galvanized, hot dip galvanized and spray plastic. This makes it easy to find the perfect solution for your specific needs.
Bythai BT205 Steel Scaffolding Planks are certified by SGS and ISO, ensuring that they meet the highest standards of quality and safety. They also come with a minimum order quantity of 1000, making them ideal for use on large construction sites and industrial projects.
The price of these planks ranges from 15.5 to 85.5, depending on the size and material you choose. They are packaged in bundles and shipped in containers, with a delivery time of 10-15 days. Payment terms include container and shipping, making it easy to get the products you need when you need them.
So whether you are a construction worker, industrial worker or DIY enthusiast, Bythai BT205 Steel Scaffolding Planks are the perfect solution for all your high-access needs. Order yours today and experience the quality and safety that they offer.
