Product Description

Features:

Product Name: Scaffolding Plank
Length: Customized
Packaging: Container
Place of shipment: China
Material: Steel
Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
Keywords: scaffoding steel plank, pierced steel planking, steel plank

Technical Parameters:

Product Attribute	Value
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Length	Customized
Packaging	Container
Place of Shipment	China
Usage	Scaffolding
Material	Steel
Additional Information	This galvanized steel scaffolding plank is also known as BS1139 steel plank or steel plank ringlock scaffolding.

Applications:

The BT205 steel plank for scaffold is ideal for use in a range of different scenarios, including construction sites, building renovations, and maintenance projects. It is perfect for use in situations where workers need to work at height, and can be used as a temporary platform for tasks such as painting, plastering, and electrical installations.
This steel plank with hooks is also well-suited to use as pierced steel planking for use in outdoor environments, such as scaffolding structures for bridges, viaducts, and other large-scale construction projects. The BT205 is designed to resist weathering and corrosion, making it a reliable choice for use in harsh environments.
Bythai's steel plank for scaffold is available in a range of lengths and can be customized to meet your specific needs. It is certified by SGS and ISO, ensuring that it meets the highest standards of quality and safety. The minimum order quantity for this product is 1000, and it is priced between 15.5-85.5 per unit.
The BT205 steel plank with hooks is shipped from China in container packaging and has a delivery time of 10-15 days. Payment terms are container and shipping. Whether you are a contractor, builder, or construction worker, Bythai's steel plank for scaffold is a reliable and cost-effective solution for all your scaffolding needs.
